### **Condition 3 Bird Hazard Management Plan**

I have reviewed the Bird Hazard Management Plan by Ecosupport (July 2026). The recommendations in this plan seem reasonable and achievable, with monitoring inspections logged and communication with airfield operations required before any bird dispersal activities take place. I am satisfied that condition 3 can be discharged.

### **Condition 4 Construction Environmental Management Plan**

I have reviewed the CEMP (Rev 02, July 2026), CEMP by Ecosupport (July 2026), the PV CDM Area Plan, Articulated Lorry Access/Egress, and the controlled crossing plan.

Condition 4 can now be discharged.

### **Condition 5 Biodiversity Enhancement Scheme**

I have reviewed the Biodiversity Enhancement and Management Plan by Ecosupport. It is appropriate. Condition 5 can now be discharged.
