

H/26/101577 - 8 CLANFIELD CLOSE, CHANDLER'S FORD

28/07/2026

Dear Alex,

As with the previous application, whilst there should be no direct impacts from the proposed work, there are obviously concerns regarding the potential for indirect impacts, such as material storage and construction access. If you are minded to approve the application, please condition the following:

No excavation, demolition or development related works, including placement of goods, chemicals, fuels, soil or other materials, shall take place within the calculated Root Protection Area – defined as a distance of 12 times the diameter of the stem (as measured at 1.5m) – of any tree protected under Tree Preservation Order legislation. Reason: to retain and protect the existing trees which form an important part of the amenity of the locality.
