For attention of Mrs Martin

Dear Sirs

**Re: F/26/101745 At UNIT 5, NELSON INDUSTRIAL PARK, HERALD ROAD,
HEDGE END, SOUTHAMPTON, SO30 2JH**

Erection of palisade fence and gates

In regard to application F/26/101745, having reviewed the information contained within the application pack, there would be **no objection** to the proposals from a highway perspective.

The proposed fencing and gate is situated well away from the adopted highway, and as such do not cause any direct highway concerns.

Despite this, an initial review has been undertaken, and it is noted that the gate and fence is to be constructed of materials that can largely be seen through due to the gaps in vertical slats, and as such visibility can be retained.

Onwards, whilst a gate is proposed adjacent to the private road, this is not an unusual scenario on industrial estates, and it is (a) anticipated that the gate will be opened early morning and remain open until closing time early evening. At which point peak periods are likely to be missed so any obstruction would be minimal, and (b) it is noted that passing traffic would be generated by one building only, with a cul-de-sac dead-end further on again minimising passing traffic flows.

Yours faithfully,

Matt Grantham
