

DO NOT SCALE EXCEPT FOR PLANNING PURPOSES

- ### Notes
- GENERAL**
- This drawing shall be read in conjunction with all relevant Engineer's, Architect's and specialist's drawings and specification.
 - No dimensions shall be scaled from this drawing.
 - All dimensions are in millimetres and levels are in metres unless noted otherwise.
 - The Engineer is not responsible for dimensional information except where shown on the drawings. All setting out information, dimensions etc. shall be calculated from the Architect's drawings.
 - All drawings issued in dwg/Revit format are provided solely as a supplement to the information shown on the equivalent PDF drawing only.
 - The Contractor shall verify all site dimensions and existing details, setting out dimensions and levels with the Architect. The Engineer shall be informed of any discrepancies before proceeding with work.
 - Existing details are assumed and shall be confirmed on site by the Contractor, with any discrepancies recorded and reported to the Engineer so that any adjustments required can be considered.
 - The Contractor shall be responsible and liable for ensuring the stability of the works, adjoining structures and services at all stages of construction. Any temporary works shall be designed, installed and maintained by the Contractor.
 - Existing below ground services and obstructions shall be located and identified prior to start of the work on site.
 - Care shall be exercised when excavations are close to existing structures to ensure they do not experience any loss of support. Temporary and permanent works for excavations shall be designed to resist the additional lateral earth pressures arising from any permanent and variable actions applied ground level or resulting from existing structures, in addition to those generated by the soil itself, without significant deformation.
 - Refer to the Architect's/Fire Consultant's drawings and specification for the overall fire strategy and protection requirements of the building and structure.
 - Refer to the Engineer's "NBS" Specification of Works for detailed specification.
 - Notwithstanding the content of these notes, all construction shall meet the requirements of Building Regulation Approved Document Part A and H.
 - If in doubt, ask!
