For attention of Ms Morris

Dear Sirs

Re: A/26/101573 At 41 LEIGH ROAD, EASTLEIGH, SO50 9DF

Proposed installation of 2.no internally illuminated fascia signs and 2.no internally illuminated projecting/having signs to replacement existing advertisements

In regard to application A/26/101573, having reviewed the information contained within the application pack, there would be **no objection** to the proposals from a highway perspective.

The signs are either located flat to the building, or in the case of the projecting signs, they are at a height that will not impede movement below. Onwards, the signs are static with no moving images, and at 250cd/sqm, are below maximum light levels that could be permitted from a location such as this.

As such, no highway impact or distraction would be anticipated to occur as a result of the signage being implemented.

Yours faithfully,

Matt Grantham
