Rebecca,

Re: F/26/101981
Our reference: 2016016

I refer to your consultation request received in this office on 2nd September 2026. The proposed development has been examined from an aerodrome safeguarding perspective and does not conflict with safeguarding criteria. We, therefore, have no objection to this proposal.

Given the nature of the proposed development it is possible that a crane may be required during its construction. We would, therefore, draw the applicant's attention to the requirement within the Civil Aviation Authority for the safe use of cranes, for crane operators to consult the aerodrome before erecting a crane in close proximity to an aerodrome. Many thanks

Dan
