Subject: PN/26/102035 - IMPERIAL HOUSE, GRANGE DRIVE, HEDGE END, SOUTHAMPTON, SO30 2AF - pollution comments

Good morning Rebecca,

Thank you for consulting the Pollution Team on the Prior Approval reference PN/26/102035 for the installation of solar panel array to the roof of IMPERIAL HOUSE, GRANGE DRIVE, HEDGE END, SOUTHAMPTON, SO30 2AF.

I have reviewed the proposal drawings and the technical note regarding glare from the proposed system.

The technical note is from September 2009 however the criteria are still correct.

The site is a commercial/office area with other neighbouring buildings with solar panels.

I find this low risk and therefor acceptable.

Thank you

Andre
