

Ecology response 14 9 26 Amended H/26/101458 41 HOCOMBE ROAD, CHANDLER'S FORD,
EASTLEIGH, SO53 5SP

Erection of two-storey side and rear extensions and an attached garage wing with roof accommodation, together with dormer windows, fenestration changes, and external elevational alterations (Amended description)

Dorothy Hei-Tung-Hoh

14/9/26

No objection.

The main change is to add an attached garage wing with roof accommodation which does not affect any potential bat roost features. The PEA by CC Ecology (August 2026) addressed habitat for great crested newts, reptiles and bats. The biodiversity enhancements should be agreed before determination but can be conditioned. The conditions and advisories listed in the ecology response of 7/9/26 are still appropriate.
