

Ecology response for H/26/102016 42 KENWORTHY WAY, NORTH STONEHAM PARK,
EASTLEIGH, SO50 9RA

Detached Building comprising of Utility Room, Store Room and Home office

Gina Aftanas

15/9/26

No objection.

Aerial photos available on Google maps show that the area impacted by the proposal is amenity lawn.

Biodiversity enhancements will be required in accord with Local Plan policy DM 11. A bat box and a swift nest box may be appropriate for this building.

The Bat Conservation Trust recommends installing a bat brick/box at least 4 m above the ground, away from artificial light sources, sheltered from strong winds and exposed to the sun for part of the day, facing south, south-east or south-west. (<https://www.bats.org.uk/our-work/putting-up-your-box>)

Swift nest boxes are best positioned under the eaves or on walls facing north, northeast or north-west out of direct sunlight, five metres above the ground, with clear adjacent airspace so swifts can access them in a high-speed direct flight.
