

Ecology response for L/26/102097 THE COTTAGE, SCHOOL LANE, HAMBLE-LE-RICE,
SOUTHAMPTON, SO31 4JD

Driveway created and electric car charger installed.

Gina Aftanas

28/9/26

Although there are records of reptiles in this area, the site is isolated from suitable reptile habitat by roads and paved surfaces. There are also records of hedgehogs nearby, but this proposal is not likely to affect hedgehogs.

A precautionary working method statement for reptiles and hedgehogs will be required.

It should include:

All building materials to be stored on hard standing or on pallets, as far as possible from hedgerows, scrub or potential habitat.

Any excavations must be covered at night or be fitted with a small animal escape ramp

No fires can be lit on site.

Waste must be stored in a skip and not be allowed to accumulate in piles which could be used by wildlife. Any chemicals and fuels must be stored carefully and away from potential wildlife habitat.

Any animals found on site should not be handled but be allowed to move away to a place of safety on their own.

Biodiversity enhancements will be required in accord with Local Plan policy DM 11.
