Dear Sir/Madam,

Proposal: Retention of side-enclosed lean-to timber canopy structure.

Site: 26 TADBURN CLOSE, CHANDLER'S FORD, EASTLEIGH, SO53 2NF.

Thank you for your correspondence, please see our comments below regarding the above application.

Existing Gravity Sewer - tree, buildings, assets within stand-off distance

The 150 mm diameter gravity sewer requires a clearance of 3 metres on either side of the gravity sewer to protect it from construction works and to allow for future maintenance access.

No development or tree planting should be carried out within 3 metres of the external edge of the public gravity sewer without consent from Southern Water. All existing infrastructure should be protected during the course of construction works. Please refer to:

<https://www.southernwater.co.uk/media/st5orjvm/stand-off-distances.pdf>

Condition

In order to protect public sewers, Southern Water requests that if consent is granted, the following condition is attached to the planning permission; The developer must agree with Southern Water, prior to commencement of the development, the measures to be taken to protect the public sewers

Due to legislative changes effective from 1st October 2011 regarding the ownership of sewers, it is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction work, an investigation of the sewer will be required to ascertain its ownership before any work commences on site. If this happens, please call our Customer Service Desk on 0330 303 0119.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119)
