Dear Sir/Madam,

Proposal: Construction of 6No. three-bedroom terrace dwellings with associated parking and landscaping following demolition of existing site structures (revised scheme to F/25/100154)
Site: 91B THE CRESCENT, EASTLEIGH, SO50 9BJ.

Thank you for your correspondence, please see our comments below regarding the above application.

Insufficient Information provided

Condition

Construction of the development shall not commence until details of the proposed means of foul water drainage disposal have been submitted to, and approved in writing by the Local Planning Authority in consultation with Southern Water.

Existing Southern Water Assets – General within boundary but no tree, buildings, assets within standoff distance (approximate)

Please see the attached extract from Southern Water records showing the approximate position of our existing sewer and water main assets crossing/in the vicinity of the development site. The exact position of the public assets must be determined on site by the applicant in consultation with Southern Water before the layout of the proposed development is finalised. To get in contact to confirm the exact position of the asset please visit;

https://www.southernwater.co.uk/media/ph4fk3pe/ds-location-of-rising-mains_pb.pdf.

For information on required stand-off distances from public sewers please refer to:

<https://www.southernwater.co.uk/media/st5orjvm/stand-off-distances.pdf>

Tree Planting

We have restrictions on tree planting adjacent to Southern Water sewers, rising mains or water mains. Reference should be made to Southern Water's publication "A Guide to Tree Planting near water Mains and Sewers" (https://www.southernwater.co.uk/media/pddob0vn/ds-tree-planting-guide-1_nwm.pdf) and the Sewerage Sector Guidance (<https://www.water.org.uk/sewerage-sector-guidance-approved-documents/>) with regards to any landscaping proposals and our restrictions and maintenance of tree planting adjacent to sewers, rising mains and water mains.

Condition

In order to protect public apparatus, Southern Water requests that if consent is granted, the following pre commencement condition is attached to the planning permission; The developer must advise the local authority (in consultation with Southern Water) of the landscaping proposals in proximity of public apparatus in order to protect it in accordance with Southern Water's guidance, prior to the commencement of the development.

Connection to water distribution main

Our investigations indicate that Southern Water can facilitate water supply to service the proposed development. Southern Water requires a formal application for a connection to the water supply to be made by the applicant or developer.

To make an application visit Southern Water's Get Connected service:

<https://developerservices.southernwater.co.uk> and please read our New Connections Charging Arrangements documents which are available to read on our website via the following link www.southernwater.co.uk/developing-building/connection-charging-arrangements

Proposed Soakaways

The Council's Building Control officers or technical staff should be asked to comment on the adequacy of Soakaways to dispose of surface water from the proposed development. No new Soakaways should be located within 5 metres of a public or adoptable gravity sewer, rising main or water main.

No Soakaways should be connected to the public surface water sewer.

Proposed works involve demolition.

In order to protect and safeguard the existing water supply apparatus, Southern Water requests formal notification of any proposed demolition works prior to such works being undertaken.

S106 Connection application

Any new connections to the public sewerage system will require a Section 106 connection application to be submitted and approved by Southern Water Services.

To make an application visit Southern Water's Get Connected service:

<https://developerservices.southernwater.co.uk> and please read our New Connections Charging Arrangements documents which are available on our website via the following link: <https://www.southernwater.co.uk/developing-building/connection-charging-arrangements>

Please note that, where there are separate systems available, Southern Water will not allow surface water to connect into the public foul sewer. If this is not possible, please provide evidence that all other options have been explored.

Due to legislative changes effective from 1st October 2011 regarding the ownership of sewers, it is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction work, an investigation of the sewer will be required to ascertain its ownership before any work commences on site. If this happens, please call our Customer Service Desk on 0330 303 0119.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119)
