Details of the pre-application advice received

Firstly, we would like to acknowledge that the adjustments made to the design, particularly the rear extension (facing Park Road), have successfully addressed the concerns previously raised by the inspector.

However, in an effort to further refine the proposal, we recommend considering the following two points:

Rear extension (Facing Park Road)

We suggest adjusting the position of the rear extension by moving it slightly back—approximately half a brick. This minor modification will not impact the internal layout but will allow for a cleaner line, avoiding potential challenges in achieving a seamless brick match with the host dwelling. This adjustment will also enhance the aesthetic appeal of the extension and eliminate the need for a potentially challenging brick match.

Roofing material for the extensions

While we understand your intention to use slate for the extension, we would like to highlight a consideration regarding the roof pitch. If the roof pitch is too low for traditional slate, we recommend exploring alternative options such as a zinc or modern slate. The key is to ensure that the chosen material is a dark grey colour, matching the main roof, to maintain visual coherence.

It is important to note that these recommendations are still dependent on the final details of the drawings. However, the latest design brings us closer to the level of acceptability we are aiming for.

Our intent is to mitigate any potential mismatch in brickwork with the host dwellinghouse. Therefore, as long as the extension is positioned slightly back, we find it acceptable.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
