NOTES

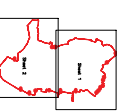

- This drawing should be read in conjunction with EPA Community Flood Risk Assessment (Doc ref: 0377-00001 FRAs - Issue 2) dated May 2021.
- This information is based on the Topographical Survey undertaken by Peter Rice Limited, Dunnington, North Yorkshire, on 12th May 2014.
- This also depends on the River's Corrected Mean Sea Level. The datum used is DMS2003's OMS Cap 01 New P12, dated 04.12.03
- With River designation based on Flood Map for Great Britain
- All S100s features shown on this drawing are as shown on the Flood Map for Great Britain

7. Detailed design of laboratory diagnosis facilities to detect, identify and quantify the agent and the environmental exposure system. Sufficient information should be provided to ensure diagnosis is not restricted for only return periods up to the 505 year design event. Refer to the 505 year design event. Refer to the 505 year design event. Refer to the 505 year design event.
8. Typical layout of Synoptic SACS facilities to inform detailed design team on drawing number 027/13.
