To Who It May Concern,

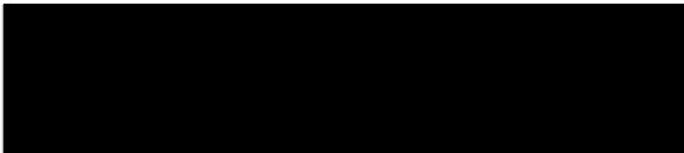

University of Southampton – Artificial Turf Pitches

I can confirm the 2 artificial sports pitches supplied to S&C Slatter for University of Southampton are compliant to FIFA and WR using cork organic infill.

These systems have been independently laboratory tested to achieve this status and will be independently field tested once installed, and then supplied with a certificate from the governing bodies to confirm this.

Fieldturf is proud to be an official Preferred Manufacture for both FIFA and WR.

Yours faithfully,

Gilly BURROWS
Commercial Director
