Parcel C6 is now 60% complete.

Condition 8 – Plans and Particulars

Requested:

Condition 8a - Lighting

- *Drawing B1015-MJA-P6-XX-DR-C-001 rev C2 “Engineering & Drainage Layout” and Prolectric’s street lighting drawing 2021104 rev D are not consistent with regard to the provision of a lighting column outside plot 375. Please check and amend the plans accordingly.*
- *Details of the types of lighting column /bollard proposed, e.g. style, colour, etc., are still required. An image from a product brochure would be sufficient. I note on Prolectric’s website they sell 2 types of solar street lights – AE3 and AE6, and 2 types of solar bollards – ST and SR, but those references don’t appear on Prolectric’s street lighting drawing 2021104 rev D.*

Submitted: B1015-MJA-P6-XX-DR-C-001 Rev C8
Prolectric AE3 Solar Street Lighting
Prolectric ST Bollard Solar Lighting

I have attached for your information the amended drawing B1015-MJA-P6-XX-DR-C-001 (now Rev C8) and information on the types of solar street lighting and bollard solar lighting proposed for the parcel, as provided by Prolectric.

We trust this is now sufficient to discharge condition 8a – lighting for parcel C6.

Condition 8I - Window details and designs

- *As previously requested in relation to other parcels, please can you provide details of all types of windows proposed on the house types within this parcel, e.g. casement windows with and without glazing bars, windows with top hung elements, patio windows/doors. This general approach to this condition was discussed at the meeting that Nick Parker attended.*

Submitted: Copy of 2023.03.08 Linden Collection Finishing Specification - January 2023

Condition 8I - Windows & doors info

I have attached for your information the information requested on the windows/doors proposed, plus a copy of the finishing specification for the parcel and site.

We trust this is now sufficient to discharge condition 8I – Window details and designs for parcel C6.
