

Comments received on supervision statement received 11/03/2024

The letter is a little vague. The biggest issue is with the proposed dates, as they have already lapsed.

Can you enquire about when they will be carryout the supervised work? I will be happy to take an email with updated dates as an addendum to the letter.

The applicant advised they have secured a date of 03/04/2024 with an arboriculturalist who will carry out the supervised works. The Tree Officer was content with this date and recommended condition 6 be discharged on 14/03/2024

Comments received 25/01/2024

Condition 5 is a compliance only condition. This cannot be discharged, only complied with.

Condition 6 requests a supervision statement. The only document contained within the case files is the original arboricultural report that has been conditioned (see Condition 5). Therefore, we cannot recommend discharge of Condition 6 at this time.
