Town and Country Planning Act 1990
The Town and Country Planning (Development Management Procedure) (England)
Order 2015

Application No. H/24/96787

In pursuance of their powers under the above Act and in accordance with your application received on Thursday 8 February 2024 the Council, as Local Planning Authority hereby **Permit** the following :

Description: Extensions and alterations to roof to include increased ridge height and 1no. rear dormer to create second floor accommodation
Site: 1 SMITH GROVE, HEDGE END, SOUTHAMPTON, SO30 0JH

Subject to due compliance with the following conditions:

- 1 The development hereby permitted shall be implemented in accordance with the following plans numbered:

Existing Elevation, Floor and Block Plans - C23-029-001_A
Proposed Elevations, Floor and Block Plans - C23-029_101_A
Location Plan - LOC 01

Reason: For the avoidance of doubt and in the interests of proper planning.

- 2 The development hereby permitted shall start no later than three years from the date of this decision.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 3 The brickwork and roof tiles to be used in the construction of the external surfaces of the development hereby permitted shall match in type, colour and texture those used on the existing building.

Reason: To ensure a satisfactory visual relationship between the new development and the existing.

- 4 Prior to the installation of the cladding, full details of the type, colour and texture shall be submitted and approved by the Local Planning Authority.

Reason: To ensure a satisfactory visual appearance in the interest of the amenities of the area

- 5 The second floor floor window on the southeast elevation serving the ensuite [as marked on the approved plan C23-029_101_A] shall be obscure glazed to Pilkingtons level 3 or equivalent and be top opening only, unless the window is positioned at least 1.7 metres above the floor of the room in which it is installed.

Reason: To protect the amenity and privacy of the adjoining residential properties.

Note to Applicant: In the unlikely event of any bats being found during demolition or construction, all work must stop immediately, and Natural England must be informed. Additional information is available on the Bat Conservation Trust website at <https://www.bats.org.uk/advice/im-working-on-a-building-with-bats/ive-found-a-bat-during-works>

Note to Applicant: Biodiversity enhancements have been recommended. A bat brick/box and a swift brick/nest box may be appropriate to build into the extensions. Built in boxes do not require maintenance and cannot fall off.

The Bat Conservation Trust recommends installing a bat brick/box at least 4m above the ground, away from artificial light sources, sheltered from strong winds and exposed to the sun for part of the day, facing south, south-east or south-west. (<https://www.bats.org.uk/our-work/putting-up-your-box>)

Swift nest boxes are best positioned under the eaves or on walls facing north, northeast or north-west out of direct sunlight, five metres above the ground, with clear adjacent airspace so swifts can access them in a high-speed direct flight. (<https://www.swiftconservation.org/Nestboxes%26Attraction.htm>)

Note to Applicant: It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

Note to Applicant: In accordance with paragraph 38 of the National Planning Policy Framework (December 2023), Eastleigh Borough Council takes a positive approach to the handling of development proposals so as to achieve, whenever possible, a positive outcome and to ensure all proposals are dealt with in a timely manner.

Yours faithfully

A handwritten signature in black ink that reads "N Parker".
