Dear Ms Altman,

Planning Application Consultation Request DC/24/97105 Discharge of condition 15 O/18/83698

Thank you for your consultation regarding the discharge of condition 15. I note the documentation submitted and the covering statement by Mr Hayes indicating that with the submitted documentation there should be no objection to the discharge of the condition.

I note within the submitted post excavation assessment recommendation is made for some further post excavation study of some categories of material and for the final reporting and publication of the results. There is no indication with this application as to whether these provisions have been secured and will be delivered, particularly the need for a final report and publication. However in a similar situation regarding the discharge of the conditions on the County Council planning system, which invoked the same reports, and having raised this same concern, a letter was submitted dated 17 November 2022 from Wessex Archaeology (the contractor) to confirm that the proposed additional analysis, reporting and publication has been authorised and the resources were secured. On that basis I did not raise any archaeological objection to the discharge of that condition.

Aware of this letter from Wessex Archaeology I would also, in this case, not raise any archaeological objection to the discharge of the archaeological condition. However, as that letter has not been submitted to you you may wish to request a copy to satisfy yourselves that the reporting and publication are indeed secured.

Yours sincerely

David Hopkins
