Good afternoon,

The application has been reviewed from a primary care perspective by NHS Hampshire.

Residents of care homes often have complex health needs and therefore create additional operational pressures on GP services however rather than visiting the GP surgery for treatment they are visited at their place of residence. Therefore, on this occasion the ICB will not be requesting a contribution for additional infrastructure capacity.

However, the ICB would like to highlight that if there is already sufficient Care Home capacity within the area then this development could lead to a population increase of patients who will have higher than average health and care needs.

Kind Regards,

Mia
