Date: 28/03/2024

Parcel C5 is now 100% complete.

Condition 15 – garden gates

It is noted that the original covering letter included a photograph showing the style of gate used, however this does not reflect the type of boundary railings that have been installed on site, so revised details are required. In addition, as previously requested a plan is required showing which plots the gates are to be installed on.

Gates to frontage boundaries weren't detailed on the original planning layouts. However, the images above show the metal railings and the type of gate used on this parcel.
