FW: Auto Reply from Planning mailbox at Eastleigh Borough Council

Good evening,

I've received my letter but I'm unable to comment directly onto the application.

My comments still stand and I object to the planning application.

The vehicle's shown in the diagram show an artist interpretation of what it may look like in perfect conditions. Take a normal day on Sydney Avenue, with cars parked everywhere, take different size vehicles (vans, pick-ups, SUVs) the application doesn't have enough space. If each house hold has two cars there isn't enough parking.

The drawings show a very fluid diagram of cars parked within the properties adjacent to the entrance which would not be sustainable with the new access arrangements.

I done believe other concerns have been adequately addressed.

Kind regards,
Miss H Cox
