Subject: [F/24/97188] UNIT H, GEORGE CURL WAY, EASTLEIGH, SO18 2RX - Contaminated land comments

Hi Rachel,

Thanks for consulting the Pollution Team on the above application.

As part of the Pre-application consultation Q/23/96487, we have indicated that as the proposal involves minor alterations (installation of doors, fencing and change of use from car park to helipad) and minimal or no ground disturbance is anticipated, and that there will be no pollutant linkage between any potential contaminated soils and these receptors, we considered that, from the contaminated land perspective, the proposed development is acceptable and we have no further comments on this regards.

I trust this information is of assistance.

If you have any further queries, please do not hesitate in contact us.

Best regards,

Yacklin Panza
