Town and Country Planning Act 1990
The Town and Country Planning (Development Management Procedure) (England) Order 2015

Application No. H/24/97119

In pursuance of their powers under the above Act and in accordance with your application received on Monday 25 March 2024 the Council, as Local Planning Authority hereby **Permit** the following :

Description:	Roof alterations with front and rear dormers. Single storey front extension. Single storey side and rear extensions following the demolition of the existing garage and side conservatory (AMENDED DESCRIPTION)
Site:	10 LINDEN GARDENS, HEDGE END, SOUTHAMPTON, SO30 0HY

Subject to due compliance with the following conditions:

- 1 The development hereby permitted shall be implemented in accordance with the following plans numbered: 001, 101 and LOC002.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 2 The development hereby permitted shall start no later than three years from the date of this decision.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 3 The materials to be used in the construction of the external surfaces of the development hereby permitted shall be in accordance with the following plan numbered: 101. The main roof and the front and rear dormers must be of a dark colour, matching as closely as possible.

Reason: To ensure a satisfactory visual relationship between the new development and the existing.

Note to Applicant: In the unlikely event of any bats being found during demolition or construction, all work must stop immediately, and Natural England must be called. Additional information is available on the Bat Conservation Trust website at <https://www.bats.org.uk/advice/im-working-on-a-building-with-bats/ive-found-a-bat-during-work>

Note to Applicant: In the unlikely event of any great crested newts being found during demolition or construction, all work must stop immediately, and Natural England must be called.

Note to Applicant: The Bat Conservation Trust recommends installing a bat brick/box at least 4 m above the ground, away from artificial light sources, sheltered from strong winds and exposed to the sun for part of the day, facing south, south-east or south-west. (<https://www.bats.org.uk/our-work/putting-up-your-box>) Swift nest boxes are best positioned under the eaves or on walls facing north, northeast or north-west out of direct sunlight, five metres above the ground, with clear adjacent airspace so swifts can access them in a high-speed direct flight. (<https://www.swiftconservation.org/Nestboxes%26Attraction.htm>)

Note to Applicant: It is requested that the building works are carried out considerately to minimise disruption to the occupiers of the neighbouring properties. The council operates a code of best practice, which is available on the council's website www.eastleigh.gov.uk by following the links to Planning and Building, Building Control, then select 'Considerate Builders Advice Note'.

Note to Applicant: In accordance with paragraph 38 of the National Planning Policy Framework (September 2023), Eastleigh Borough Council takes a positive approach to the handling of development proposals so as to achieve, whenever possible, a positive outcome and to ensure all proposals are dealt with in a timely manner.

Yours faithfully

A handwritten signature in black ink that reads "N Parker". The signature is written in a cursive style with a horizontal line underneath the name.
