

Plan 1. Ecological Enhancements.

Hedgehog Highway Specification

Holes measuring 13cm x 13cm will be made at the base of boundary fences/gravel boards into and between each garden as marked on the above plan. Small signage should be installed on the fence above either side of these access points to ensure they remain open upon completion of the development. The People's Trust for Endangered Species provide such signage, the purchase of which also supports conservation efforts. In addition, the new homeowner welcome packs should include a map and reference to the site Hedgehog Highways. This, in combination with a Hedgehog Street leaflet, will help to encourage retention of the features once the development is operational. The information leaflets can be found freely accessible at: <https://www.hedgehogstreet.org/wp-content/uploads/2023/10/Hedgehog-Street-Top-Tips-Sept-23.pdf>.
