Subject: [DC/24/97328] HENDY MAZDA EASTLEIGH, VILLENEUVE ST GEORGES WAY SO50 9SJ

Hello Rebecca,

Thanks for consulting the Pollution Team on the application above.

I have reviewed our files and we have agreed with the discharge of condition 3 (contaminated land) of F/21/91786 as risk from contamination was assessed as negligible after the ground investigation works reported in the Applied Geology Report (2022) (see our response attached). As a result, no remediation measures were proposed to the development, and therefore, no verification report is necessary.

Based on the above, we are happy to recommend the discharge of condition 4 (verification) of planning F/21/91786.

I trust the above information is of assistance.

If you have any further queries, please do not hesitate in contacting me.

Best regards,

Yacklin
