Subject: 67 Ribble Close

Dear Eastleigh Planning,

I'm writing to you to voice my concerns over the parking proposal to remove a parking space on Ribble Close to allow a drop kerb and drive for number 67.

I am a homeowner at number 71, mother of a 3 year old and am currently 33 weeks pregnant. The current parking situation on the street isn't viable at present, often leaving me parking at the bottom of the hill and walking a preschooler up to our house, whilst heavily pregnant with groceries and any other contents to take into our home.

Not only do we face verbal abuse from residents towards the bottom of the street from being forced to park there, I have also had a resident bang on my window threatening violence towards me and my son for parking outside of their house.

The proposal to remove even more parking is of great concern. Not only does this devalue the properties at the end of the close as we can no longer sell our properties with any promise of available parking, I feel unsafe. I feel unsafe parking my car with my soon to be two small children for fear of abuse and threats.

Yours,

A very vulnerable and upset resident.

Kim Webb - 71 Ribble Close.
