11 EDEN ROAD, WEST END, SOUTHAMPTON, SO18 3QW

Representee	Address	Comments
Russell Winstone	13 EDEN ROAD WEST END SOUTHAMPTON SO18 3QW	This work is desperately needed, the tree is extremely lopsided and looks a real risk to property and people. There are several large dead limb that need attention.
Kelly Stronach	13 EDEN ROAD WEST END SOUTHAMPTON SO18 3QW	This tree is in desperate need of reducing due to the size and angle which is a potential risk to life to local residents, it also poses a severe risk to neighbouring properties and therefore a danger to life to those living within and guests. Young children often frequent the neighbouring properties and use the private frontage as a play area. The size of the tree causes a risk of injury due to the size of branches and also poses a risk to damage property ie parked cars within the neighbouring properties. The tree is surrounded by large well established trees within the copse which it adjoins therefore will not have a direct impact on the aesthetics of the wooded area.
Roderick Stronach	Arden Close Southampton Hampshire SO18 3QW United Kingdom	I feel the tree would benefit greatly from trimming. It would add to the aesthetics and make the area lighter. I also feel that when I visit the area that I won't be in fear of branches falling. I often see debris from this tree and am co Verne's by some of the large arms that have fallen.
