Objection to Planning Application Number H/24/97402, 109 Satchell Lane

Dear Sir/Madam

Please note my objection to this planning application.

This property is already hugely over extended resulting in an oppressive and overbearing building that is completely out of place with neighbouring properties. Please see attached photograph for reference (taken from the rear of the properties).

Due to previous extensions, the side wall to 109 Satchell Lane sits only 25 inches from my boundary. This already impacts light to my living room as well as 2 bedrooms so a further elevation will reduce this further.

The excessive height elevation at the back of 109 will result in the entire rear of my property being overlooked, which it currently is not.

I would welcome an opportunity to meet with a Planning Officer and show them the extent of the impact that further extension of 109 Satchell Lane will have on my property. Plans and photographs do not adequately illustrate the current or future concerns of this application.

Kind regards

Louise McMillan
