

Rear of 48 & 28 Haileybury Gardens Hedge End SO30 2AN 052408

**T1** - Oak. Mature. Rear of no. 44. W3W.. *length.motor.blog*.

Bifurcated at ground level with an included Union. Limb leaning heavily over the garden of no. 48 . This limb has multiple hazard beams forming and is weighted towards the property.

Secondary limb over garden has a cavity at its Union with the main trunk.

Major deadwood and Stubbs.

#### Recommended works

Bifurcated limb and secondary limb over garden to the East back to main trunk, to remove the bulk weigh by reducing the canopy on the eastern side by 2-2.5m, stem diameter pruning wound no greater than 75mm. Remove major deadwood and stubs.

**T2** - Oak. Rear of no. 28 .W3W..*lied.edgy.hurls*.

2no. individual semi mature trees growing as one canopy over hanging rear garden of no. 32.

Main trunk of 1 of the Trees is resting on the boundary fence line, smaller co dominant tree has low over hanging branches to the east over the garden.

#### Recommended works

Crown raise to height of 5 m leaving final pruning wounds no larger than 35mm. Reduce the eastern canopy weight over the gardens by 2m. cuts no greater than 35mm stem diameter.

All works in accordance with BS3998(2010), nearest best practice pruning.
