7	8	23	Southampton City Council offers no objection. Their response is as follows: <i>I write with reference to the further consultation on the above planning application, received on 22 May 2024. We have reviewed the amended Noise Impact Assessment May 2024 (Omnia ref: C11045/NIA/1.3) which now considers the impact on residential receptors within the City of Southampton administrative boundary and concludes that there will be 'No Observed Adverse Effect'. We agree with the findings of this assessment and raise no objection to planning application ref F/24/97188.</i>	Due to the alteration of the committee date, the consultation update was missed when completing the relevant changes to the report in line with the progression of the application in this extended period.
