Categories: Consultation responses

Hi Rebecca,

Thanks for re-consulting the Pollution Team on the application F/24/97312 for the Construction of Residential Care Community, comprising a 69-bed care home (Use Class C2) and 5 x 2-bedroom close care cottages (Use Class C3 age restricted), with associated access, internal access road, parking, landscaping and infrastructure (amended description). I noted my colleagues passed you comments on environmental noise and air quality. I will comment on contaminated land.

I have reviewed the submitted information and observed no significant changes concerning contaminated land were observed. Additionally, no further reports on contaminated land have been provided. As a result, the previously recommended conditions remain applicable.

I trust the above information is of assistance. If you have any further queries, please do not hesitate in contacting me.

Best regards,

Yacklin
