Subject: F/24/97713 - Garnier Drive Access, Bishopstoke Park Continuing Care Retirement Community, Bishopstoke, SO50 6HE

Paragraph 5.4 should be amended to state that canopies are lifted to “4m” rather than “5.4m” – unless they want to prove that they will be bringing in double decker buses or want to give me a more detailed pruning specification for individual trees.

Other than that, we are ok with the proposal.

No objection, subject to the above changes and the following conditions:

The development must accord with the arboricultural report reference [LAS_763](#). No excavation, demolition or development related works shall commence until the tree protection measures have been installed as per the tree protection plan contained within the report. Once installed, no access by vehicles or placement of goods, chemicals, fuels, soil or other materials shall take place within the protected area. Tree protection measures shall be retained in their approved form for the duration of the work and may only be modified subject to written agreement from the LPA. Reason - To retain and protect the existing trees which form an important part of the amenity of the locality.

(Obviously, the reference in the above condition may change.)

Kind regards,

Chris.
