Dear Mrs Errington,

RE: Planning Application Consultation Request F/23/96631 Horton Heath One Distributor Road

Thank you for your consultation regarding the updated information submitted. I would refer you to my previous comments (dated 9 January 2024) which I would reiterate. In my previous response I recommend that some archaeological work would be merited secured by an archaeological condition.

I note that the current submissions include a written scheme of investigation for that archaeological work. I have had the opportunity to review that WSI and am happy to endorse it to you as meeting the archaeological concerns raised. Any archaeological condition attached to any planning permission might refer to the need for a WSI or might refer explicitly to the WSI that has been submitted.

Yours sincerely

**David Hopkins**
