Rebecca,

For this application we need to have a complete glint and glare assessment completed showing the impact or not of the panels in position against the flight paths of aircraft using the airport.

The proposed development has been examined from an aerodrome safeguarding perspective and could conflict with safeguarding criteria. Accordingly, a more detailed assessment requires to be undertaken regarding the potential impact on Southampton Airport.

Whilst every effort will be made to reply as soon as possible, we may not be able to reply within 21 days of receipt of your consultation request. We, therefore, submit a holding objection until we are able to advise you of the results of our investigations.

Regards,

Dan
