Friday 20 September 2024

Town and Country Planning Act 1990
The Town and Country Planning (Development Management Procedure) (England)
Order 2015

Application No. H/24/97271

In pursuance of their powers under the above Act and in accordance with your application received on Friday 26 April 2024 the Council, as Local Planning Authority hereby **Permit** the following :

Description: Proposed loft conversion to include 2no. front facing dormers and 4no. roof windows to the rear.
Site: 22 HICKORY GARDENS, WEST END, SOUTHAMPTON, SO30 3RN

Subject to due compliance with the following conditions:

- 1 The development hereby permitted shall be implemented in accordance with the following plans numbered: SP 01, LOC 001, 0795-01.001. 01, 0795-01.002. 01, 0795-01.003. 02, 0795-01.004. 01 and 0795-01.005. 01.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 2 The development hereby permitted shall start no later than three years from the date of this decision.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 3 Notwithstanding the approved drawings, the front dormers hereby approved shall be clad in dark grey lead/zinc or a similar finish.

Reason: In the interests of visual amenity.

Note to Applicant: In the unlikely event of any bats being found during demolition or construction, all work must stop immediately, and Natural England must be called. Additional information is available on the Bat Conservation Trust website at <https://www.bats.org.uk/advice/im-working-on-a-building-with-bats/ive-found-a-bat-during-works>

Note to Applicant: It is recommended to add a bat brick and a swift brick for this building as biodiversity enhancements. The Bat Conservation Trust recommends installing a bat brick/box at least 4 m above the ground, away from artificial light sources, sheltered from strong winds and exposed to the sun for part of the day, facing south, south-east or south-west. ([https://www.bats.org.uk › our-work › putting-up-your-box](https://www.bats.org.uk/our-work/putting-up-your-box)) Swift nest boxes are best positioned under the eaves or on walls facing north, northeast or north-west out of direct sunlight, five metres above the ground, with clear adjacent airspace so swifts can access them in a high-speed direct flight. (<https://www.swiftconservation.org/Nestboxes%26Attraction.htm>)

Note to Applicant: It is requested that the building works are carried out considerably to minimise disruption to the occupiers of the neighbouring properties. The council operates a code of best practice, which is available on the council's website www.eastleigh.gov.uk by following the links to Planning and Building, Building Control, then select 'Considerate Builders Advice Note'.

Note to Applicant: In accordance with paragraph 38 of the National Planning Policy Framework (December 2023), Eastleigh Borough Council takes a positive approach to the handling of development proposals so as to achieve, whenever possible, a positive outcome and to ensure all proposals are dealt with in a timely manner.

Yours faithfully

A handwritten signature in black ink that reads "N Parker". The signature is written in a cursive style with a horizontal line underneath the name.
