

Rebecca Altman
Principal Planning Officer
Planning & Environment
Eastleigh Borough Council

16th September 2024

Dear Rebecca

Application No.F/20/89125

Condition No.26

In the event that previously unidentified contamination is found when carrying out the approved development it must be immediately reported to the Environmental Health Unit. Work shall then cease until an investigation and risk assessment and, where required, a remediation scheme has been submitted to and approved in writing by the Local Planning Authority. Where a remediation scheme is required, the development shall not be brought into use until a completion certificate for the remediation work has been submitted to and approved in writing by the Local Planning Authority.

Reason: To minimise the risk from land contamination for the safety of the occupiers of the development.

I write to confirm that no contamination has been found when carrying our works on the redevelopment of the former Post Office, 14 High Street, Eastleigh.

Yours sincerely

Matt McGee
Director
PMC Construction
