Dear Sir/Madam,

Proposal: Erection of 6 dwellings with associated parking and landscaping and creation of new access from Winchester Road.

Site: Land adjacent to Pear Tree PH, Winchester Road, Southampton, SO32 2DH.

Thank you for your correspondence dated 09/08/2024, please see our comments below regarding the above application.

No habitable rooms shall be located within a minimum 15 metres of the boundary of an existing water/wastewater pumping station, due to the vibration and noise generated by all types of pumping stations and the potential odour. Southern Water requires existing access arrangements to the water/wastewater pumping station to be maintained with regards to unhindered 24 hour / 7 days a week access.

The Council's Building Control officers or technical staff should be asked to comment on the adequacy of soakaways to dispose of surface water from the proposed development. No new soakaways should be located within 5 metres of a public or adoptable gravity sewer, rising main or water main.

Southern Water requires a formal application for a connection to the public sewer to be made by the applicant or developer.

To make an application visit Southern Water's Get Connected service: <https://developerservices.southernwater.co.uk> and please read our New Connections Charging Arrangements documents which are available on our website via the following link: <https://www.southernwater.co.uk/developing-building/connection-charging-arrangements>

We request that should this planning application receive planning approval, the following informative is attached to the consent: Construction of the development shall not commence until details of the proposed means of foul sewerage and surface water disposal have been submitted to and approved in writing by the Local Planning Authority in consultation with Southern Water.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119).
