**Subject:** [F/24/98269] Upper area of the River Hamble, between piles V23 and V24, opposite Swanwick Marina

Hi Rachel,

Thanks for consulting the Pollution team on the application F/24/98269 for the installation of one floating pontoon between piles V23 and V24 at Upper area of the River Hamble, between piles V23 and V24, opposite Swanwick Marina.

From the Pollution perspective, provided standard pollution control measures (i.e. preventing debris, oils, construction materials entering the watercourse, and ensuring that works are carried out during standard working hours) are implemented during installation and operation, I have no objections to the installation of the floating pontoon between piles V23 and V24.

I trust the above information is of assistance. If you have any further queries, please do not hesitate in contacting me.

Best regards,

Yacklin
