Hi David

I refer to the application for erecting a 3m acoustic fence to the boundary of the premises [Aldi] and comment on Environmental Noise Impact.

Referencing the covering letter Planning Potential 11 September 2024, giving manufacturers specification for noise reduction; it does not show the impact at the noise sensitive receptor [NSR] being the residential houses Goodlands Vale.

There is nothing further linking this to the refusal X/24/96772 June 2024 for removal of condition 17 [delivery hours]. If the wish of the applicant, this can be made separately with an acoustic report showing the enhancements of acoustic fencing on the NSR.

Therefore, I have no objections to the application.

Thanks
