Hi Rebecca.

I refer to the amended application for the removal of the roof, with new luminaires to the proposed padel courts and comment on environmental light impact.

The SFPD Ltd Outdoor Lighting Design Report 04/10/24 shows compliance with reduction of obtrusive light, although there is slight overspill to the horizontal plain, with Zero Lux within the site overall.

There are existing artificial light sources to the existing tennis/football pitches and car park, there will be no overall increase in lighting from the centre.

Therefore, I have no objections to the revised application regarding Environmental Impact.

Thanks
