Dear Ms Altman,

Planning Application Consultation Request RM/24/98388 Land west of Allbrook Way, Allbrook, SO50 4LZ

Thank you for your consultation regarding the reserve matters application for residential development. I would refer you to the archaeological conditions attached to the outline planning permission which I would continue to rely on. An archaeological survey (evaluation) has been carried out and the results indicate that archaeological remains exist within the site which merit archaeological excavation prior to development (condition 17). I note that the applicant has submitted a written scheme of investigation (WSI) for this further archaeological work which I am happy to endorse to you. The archaeological field work as set out in the WSI should be completed prior to development impacts and reporting and publication of the results to follow in due course. I would continue to rely on condition 17 to secure this.

Yours sincerely

David Hopkins
