YOUR COMMENTS ON THE CASE

The application (PN/23/99630) was rejected by Eastleigh Borough Council because it was considered far too dangerous to have agricultural vehicles going through the middle of a busy development. Also the proposed gate would see farm equipment accessing PFA in opposition to the flow of traffic.

All of the safety concerns were clearly recorded and these still stand.

The landowner has previously claimed they don't have access to their land and gained an application approval for a new gate on Mortimers Lane. In the last couple of weeks they have installed another gate over by the copse providing a backup access. How many accesses are required??

This application should be rejected again because this is not safe and the access is unnecessary ... putting residents at risk when there are safer alternatives.
