For attention of Ms Morris

Dear Sirs

**Re: A/24/98558 At MACKOY STADIUM, VT SPORTS GROUND,
PORTSMOUTH ROAD, BURSLEDON, SO19 9PW**

**3.no freestanding externally illuminated advertisement boards to the
vehicular access**

In regard to application A/24/98558, there would be no objection to the proposals in principle, subject to either an updated plan, or appropriately worded conditions being applied.

The single sign to the east of the access junction appears to be located in a position well out of the required visibility splay, the start of which would be set back 2.4m into the site from a central point of the access.

In terms of the two western located signs however, it is not fully clear from plans, due to the scale of the drawing, whether they are also set back out of the visibility splay. The Case Officer may wish to request updated drawings to confirm this, or alternatively apply the condition as outlined below.

Lighting levels have also been reviewed, and are acceptable subject to a condition stipulating the maximum luminance levels, and ensuring that no light source is directly visible from the highway in order to prevent distraction.

CONDITIONS

SIGNAGE PROVISION

No signs above 0.6m in height shall be placed on the site within 2.4m of the edge of highway, in order to ensure they do not impinge on visibility splays.

Deputy Chief Executive and Director of Hampshire 2050
Gary Westbrook

Reason – In the interests of highway safety.

AMOUNT OF ILLUMINATION

The illumination of the consented sign(s) shall be no greater than 200 candela per square metres and no light source shall be visible from the highway.

Reason: In the interests of highway safety/amenity.

Yours faithfully,

Matt Grantham
Principal Transport Planner - Highway Development Planning
