

Planning Application F/24/97118
17 O'CONNELL ROAD, EASTLEIGH, SO50 9GN

Representee	Address	Comments
Hazel McArdle	2 SPENCER ROAD EASTLEIGH SO50 9GR	I wish to make a few comments about the above plan. This is the second application from my neighbour, I highlighted a couple of problems on that occasion and they were not resolved and still have'nt been. The original boundary was removed by Mr Michael in Nov 2022 and has yet to be replaced and it is still an open plan that I do not want. This should be addressed before the land is divided for the a building plot. We had very little use of our patio last summer due to a lack of privacy, and I do not wish to have a second summer like that this year, although it will be even more unpleasant with the demolition of the old workshop and the construction of a new house, with all the noise, dust and chaos that will ensue. while that is going on I assume Mr Michael and his partner will be living elsewhere in peace and quiet. With that in mind I think you will agree that the oft muted hints from Mr Michael, that a replacement will only be waist high, considering the plans I would rather have a new fence of a height that will keep the planned disruption out of sight as much as possible. Not only have I lost my privacy, I also lost my security and insurance cover, one policy was made invalid when the hedge was removed and trying to re new has proved difficult. As a result I am not covered at all. I would like to request that when the workshop is demolished that the people doing it are mindful of the hedgehogs that have lived underneath it for quite a few years now, the same should be considered when putting in place the new boundaries that provision is made for this endangered species to have freedom to use their usual routes and access to sources of food.
