Subject: PN/24/98596 Cockpit Farm Barn

Hi Rebecca.

I refer to the Prior Approval application for the conversion of part of the building to storage B8 and comment on Environmental Noise Impact.

There is little commentary regarding noise, the report Lake Environmental dated July 2021 refers to a previous application regarding new houses; the letter Nova Planning 6th December 2014 does not refer to changes in the hours of operation but informs that the proposed use will result in no greater impact than the present agricultural use.

However, since the nearest Noise Sensitive Receptor of residential hours are some distance; also with no structural changes to the building and with the proviso of no changes to the hours of operation, I have no objections to the application.

Thanks

Paul Bieda
