Hi Liz,

I have reviewed the hard landscape plan and have no comments.

On the tree cells, perhaps you could ask for a report to confirm installation from the company supplying the tree cells? This should include site photos during installation.

Hi Liz,

I have reviewed the latest revised soft landscape plan for this site (Dwg. No. PR124389_11 Rev G).

The plan has satisfactorily addressed the comments I made on 19/12/25 (apart from the issue of the boundary wall - I defer to your decision on this).

One point. The scheme requires specialist tree cells for 6 trees in the parking area. Can we include a condition that requires EBC to be notified when these will be installed and to be given the opportunity to inspect the tree cells before the pit is closed over? If these tree cells are omitted these trees will fail.

I could not locate a Hard Landscape proposals plan in Salesforce. If you email over a copy I will take a quick look.

Hope this helps but do get in touch if any clarification required.
