Subject: Planning application H/24/98461

You don't often get email from nlapperley@gmail.com. [Learn why this is important](#)

With reference to the above planning application, we do not have any objection.

However, we would like the following to have careful consideration.

1. The sewage pipe channel which runs in front of and connects Nos 13, 11 and 9 had to be dug up a number of years ago in front of No 11 as there was a blockage.
2. TPO's give protection to our wonderful trees.

Does this protection apply to the root system as well as the branches? The roots, giving stability and enabling the intake of water and nutrients, would be adversely affected and subject to infection by being severed.

Lorraine and Norman Apperley
