For attention of Ms Morris

Dear Sirs

**Re: A/25/98721 At PETROL SERVICE STATION, 138 TWYFORD ROAD,
EASTLEIGH, SO50 4HP**

**Replacement fascia signs to the canopy on 4.no sides (3.no internally
illuminated and 1.no non-illuminated)**

Having reviewed the information contained within the application pack associated with application A/25/98721, there would be no objection to the proposals from a highway perspective. This would however be subject to the condition outlined below being applied.

The signs are all located flush to the canopy on site, at a height that will not affect movements underneath, or anything adjacent to them. In terms of luminance, this is outlined as being 600cd/m², which is acceptable in this location.

It would however be requested that a condition is put in place to ensure luminance levels do not rise in the future.

CONDITION:

AMOUNT OF ILLUMINATION

The illumination of the consented sign(s) shall be no greater than 600 candela per square metres and no light source shall be visible from the highway.

Reason: In the interests of highway safety/amenity.

Yours faithfully,

Matt Grantham
