Proposed work	1no. Sweet Chestnut (T1) - Remove lowest small diameter limbs to prevent squirrels getting onto bird feeder.					
Assessment Date	17/01/2025					
Officer comments	The sweet chestnut (T1) is located in the rear garden within a group of other chestnut trees that can be partially seen over the roof tops providing some public amenity. The owner specified the branch to be removed when on site, it is on the southern side of the tree approximately 4m from the ground level and is overhanging the lawn area. Removal of this branch will not affect the tree's public amenity nor will it have a detrimental effect on its health and vitality. The proposal has been deemed as justified.
